

PRESS RELEASE - SEPTEMBER 11, 2024

Appointment of Elodie Trevillot as Managing Partner at Banque Delubac & Cie

After a century of family governance, Banque Delubac & Cie is pleased to welcome Mrs. Elodie Trevillot as managing partner alongside Messrs. Jean-Michel Samuel-Delubac, Serge and Joël-Alexis Bialkiewicz.

This appointment will enable her to pursue and deepen the modernisation and rationalisation projects she has been carrying out for several years.

Elodie Trevillot joined Banque Delubac & Cie in 2019 as Head, then Director, of Regulations, Compliance and Permanent Control. Since 2022, she held the position of Deputy General Manager of Risks and Controls. In particular, Elodie Trevillot supervised the application for registration as a Digital Asset Service Provider (DASP), making Banque Delubac & Cie the 1st French bank to be registered as a DASP in March 2022.

Joël-Alexis Bialkiewicz
Managing Partner at Banque Delubac & Cie

"The appointment of Elodie Trevillot as the Group's fourth managing partner is in line with the strong modernisation of our bank, including in its governance. Her clear-sightedness, commitment and cutting-edge expertise will be key to the realisation of our ambitions and the success of our company."

Elodie Trevillot
Managing Partner at Banque Delubac & Cie

*"The trust placed in me by the Samuel-Delubac and Bialkiewicz families honours me as much as it excites me. I'm proud to be part of this unique and complex House. I was seduced by its century-old history, written by entrepreneurs who were both rebellious and pragmatic, and by its diversified, niche activities. My integration as managing partner is a perfect illustration of its open-mindedness!
My priorities are in line with those of recent years: to support the bank's modernisation with agility, to support its deployment into the future while remaining true to its roots, and to help it reinvent itself by capitalizing on its heritage."*

CV

Élodie Trevillot began her career at BNP Paribas in 2008 as an internal control analyst at BP2S (BNP Paribas Group) in Australia, then as an internal auditor in the General Inspection department, where she led audit assignments covering various areas of the bank. Her professional career also includes a role as compliance officer at Crédit Suisse in France, from 2013 to 2018. There, she managed the "US Program" project for France and was responsible for relations with TRACFIN as correspondent and declarant.

Élodie holds a Master's degree in Banking and Finance from Paris Dauphine University.

She also holds several certifications, including AMF Certification, Certified Fraud Examiner (ACFE) and Certified Internal Auditor (IIA). Outside her professional activity, she is active in the academic and Web3 communities, in particular as a lecturer for the Decentralized Finance Certificate at Paris Dauphine University and as a member of various boards and working groups related to decentralized finance and innovation.

About Banque Delubac & Cie

Banque Delubac & Cie, founded in 1924, is one of the last 100% French family-owned institutions. With more than 350 employees, it is present in France and overseas at 15 sites, including its historic head office in Ardèche. Its independence enables it to pursue a bold development strategy and offer genuine freedom of proposal. It is the 1st French bank registered as a Digital Asset Service Provider. For over a century, we have been meeting our customers' challenges by developing cutting-edge, atypical expertise. We support our customers in their professional and private lives, however complex, with tailor-made advice and a direct relationship for greater responsiveness. Its signature "Experts et Indépendants" reflects its DNA of freedom, singularity and pugnacity for tailor-made service, and its tradition of daring for its customers.
